

IT4VIP Touchscreen Technology Session 2018

Topics below that were covered at the meetings:

Thursday 12 April 2018

- Explanation of what Touchscreen Technology is;
- How to switch on and off the ipads and Tablets;
- What Wifi and data is and how it is used;
- How to close running applications;
- How to clear internet browsing history.

Thursday 10 May 2018.

- Connected devices to wifi;
- Using the internet app loaded a web page;
- Using the pinch technique to zoom in and out to make the text easier to see on a web page;
- Viewed the Accessibility options in settings;
- Turned on Zoom for full magnification, used finger gestures to zoom in and out and move around the screen:
- Switched on Accessibility Shortcut and set the home key to switch VoiceOver on and off when tripled clicked.
